Diphtheria and Tetanus Toxoids and Acellular Pertussis Adsorbed, Hepatitis B (Recombinant) and Inactivated Poliovirus Vaccine

*Tetanus Toxoid, Reduced Diphtheria Toxoid and Acellular Pertussis Vaccine, Adsorbed*

Diphtheria and Tetanus Toxoids and Acellular Pertussis Adsorbed and Inactivated Poliovirus Vaccine

### Limited Time Offer\*

- Purchase 2 of these brands and save an additional 3%
- Purchase all 3 of these brands and save an additional 5%
- All other volume requirements of the contract to qualify for a rebate still apply
- Effective July 1st through December 31st, 2010\*

### Simple Savings

- Low quarterly order minimums
- Automatically receive your payment for the savings earned after the close of each quarter
- Most brands available in Tip-Lok® prefilled syringes or vials — same price

To qualify for a rebate, a Participating Member must meet the minimum volume dose requirements in a given rebate quarter. Sales must be invoiced in a given Rebate Period for the sales to count toward the calculation of a rebate for that Rebate Period. Sales invoices posted to the GSK chargeback system within 26 days of a Rebate Period are included in the rebate calculation. Adjustment for rebates will not be made for sales not in the GSK system at the time of rebate calculation. Invoices not included in a Rebate Period are captured in the subsequent Rebate Period in which the chargeback is posted. The total amount of the payment for a Participating Member must be equal to or greater than \$100.00 for the Rebate Period. If this minimum is not met, the rebate will not be paid for the Rebate Period and Rebate amounts will not be accumulated from one Rebate Period to the next. Prices do not include Federal Excise Tax.

\*The additional 3% or 5% offered through the limited time offer are incremental to savings under existing contract terms.
